

SDS Revision Date:

07/12/2022

1. Identification

1.1. Product identifier

Product Identity Uri-Solv® Plus
Alternate Names Uri-Solv® Plus

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use Heavy duty acid descaling compound

Application Method Contact Pharmacal for proper use/dilution.

1.3. Details of the supplier of the safety data sheet

Company Name Pharmacal Research Labs., Inc.

562 Captain Neville Dr. Waterbury, CT 06705, USA

Emergency

CHEMTREC (USA) (800) 424-9300 **24 hour Emergency Telephone No.** 800-243-5350

Customer Service: Pharmacal Research Labs., Inc. 203-755-4908, (800)-243-5350

2. Hazard(s) identification

2.1. Classification of the substance or mixture

Skin Corr. 1B;H314 Causes severe skin burns and eye damage.

Eye Dam. 1;H318 Causes serious eye damage.

2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

Danger

H314 Causes severe skin burns and eye damage.

H318 Causes serious eye damage.

SDS Revision Date:

07/12/2022

[Prevention]:

P260 Do not breathe mist / vapors / spray.

P264 Wash thoroughly after handling.

P280 Wear protective gloves / eye protection / face protection.

[Response]:

P301+330+331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303+361+353 IF ON SKIN (or hair): Remove / Take off immediately all contaminated clothing. Rinse skin with water / shower.

P304+312 IF INHALED: Call a POISON CENTER or doctor / physician if you feel unwell.

P305+351+338 IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.

P310 Immediately call a POISON CENTER or doctor / physician.

P340 Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P363 Wash contaminated clothing before reuse.

[Storage]:

P406 Store in corrosive resistant container with a resistant inner liner.

[Disposal]:

P501 Dispose of contents / container in accordance with local / national regulations.

3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
Phosphoric acid CAS Number: 0007664-38-2	25 - 50	Skin Corr. 1B;H314 (> 25%)	[1][2]
(2-methoxymethylethoxy)propanol CAS Number: 0034590-94-8	1.0 - 10	Not Classified	[1][2]
polyalkoxylate CAS Number: 0068603-25-8	1.0 - 10	Skin Irrit. 2;H315 Eye Irrit. 2;H319	[1]

^[1] Substance classified with a health or environmental hazard.

^[2] Substance with a workplace exposure limit.

^[3] PBT-substance or vPvB-substance.
*The full texts of the phrases are shown in Section 16.

SDS Revision Date: 07/12/2022

4. First aid measures

4.1. Description of first aid measures

General In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

Inhalation Move to fresh air.

Consult a physician if irritation of respiratory passages occur.

Eyes Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.

Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice.

Skin Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15 - 20 minutes.

Call a poison control center or doctor for treatment advice.

Ingestion Call a poison control center or doctor for treatment advice.

Have person rinse mouth with water then drink large quantities of water to cause dilution.

Do not give anything by mouth to an unconscious person.

DO NOT Induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

Overview Slightly toxic with repeated inhalation or ingestion. May cause burns to exposed tissue.

See section 2 for further details.

Eyes Causes serious eye damage.

Skin Causes severe skin burns and eye damage.

Ingestion May be harmful if swallowed

5. Fire-fighting measures

5.1. Extinguishing media

Use media appropriate for surrounding area.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: High temperatures and fires may produce such toxic oxides as those from carbon, sulfur, and phosphorous.

Do not breathe mist / vapors / spray.

5.3. Advice for fire-fighters

Flash Point: Phosphoric acid is not combustible but may react with metals to liberate hydrogen, a flammable gas. Use full protective clothing and self- contained breathing apparatus.

ERG Guide No. 154

PRL pharmacal RESEARCH LABORATORIES, INC.

SDS Revision Date: 07/12/2022

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up

Steps to be taken in case material is released or spilled:

Dike and salvage or neutralize with lime or soda ash and dispose into treatment system in accordance with all federal, state, and local laws.

"Empty" container warnings:

Do not reuse empty container. Triple rinse with water. Dispose of in conformance with federal, state, and local regulations.

7. Handling and storage

7.1. Precautions for safe handling

Use goggles or face shield, rubber gloves, and boots where contact is expected.

See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities

Do not store near chlorine-containing compounds.

Incompatible materials: Avoid contact with chlorinated products, reducing agents, alkalis, reactive metals, and metal oxides.

Keep in well ventilated area - store above 10°c (50°f).

Store away from oxidizers and alkalines.

See section 2 for further details. - [Storage]:

7.3. Specific end use(s)

Keep out of reach of children.

For professional use only.

Do not mix with any other chemicals unless compatibility has been established by the manufacturer.

Safety Data Sheet Uri-Solv[®] Plus

8.2. Exposure controls

Respiratory Use NIOSH/MSHA approved respirator, following manufacturer's recommendations when

concentrations exceed permissible exposure limits.

Eyes Chemical Splash goggles or faceshield

Skin Overalls which cover the body, arms and legs should be worn. Skin should not be exposed.

All parts of the body should be washed after contact. Use neoprene or rubber gloves or

PVC.

Engineering Controls Provide adequate ventilation. Where reasonably practicable this should be achieved by the

SDS Revision Date:

07/12/2022

use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices

An eyewash fountain should be located in areas where the product is used. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:

9. Physical and chemical properties

9.2. Other information

Physical properties are approximate or typical values and should not be used for precise design purposes.

10. Stability and reactivity

SDS Revision Date:

pharmacal

07/12/2022

10.1. Reactivity

Hazardous Polymerization will not occur.

10.2. Chemical stability

Stable under normal circumstances.

10.3. Possibility of hazardous reactions

No data available.

10.4. Conditions to avoid

High temperatures, flames, and incompatibles.

Contact with reactive metals (e.g. mild steel-aluminum) may produce flammable/explosive hydrogen. Acid mixtures can react violently with strong alkali (bases).

Do not store near chlorine-containing compounds.

10.5. Incompatible materials

Avoid contact with chlorinated products, reducing agents, alkalis, reactive metals, and metal oxides.

10.6. Hazardous decomposition products

High temperatures and fires may produce such toxic oxides as those from carbon, sulfur, and phosphorous.

11. Toxicological information

Acute toxicity

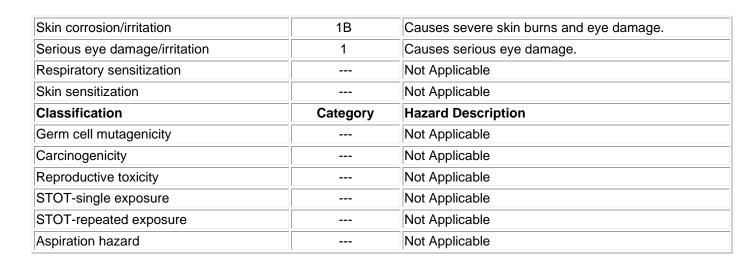

Ingredient	Oral LD50, mg/kg	Skin LD50, mg/kg	Inhalation Vapor LD50, mg/L/4hr	Inhalation Dust/Mist LD50, mg/L/4hr	Inhalation Gas LD50, ppm
Phosphoric acid - (7664-38-2)	No data available	No data available	No data available	No data available	No data available
